Registration Decision for Fluoxastrobin

Health Canada's Pest Management Regulatory Agency (PMRA), under the authority of the *Pest Control Products Act* and Regulations, is granting full registration for the sale and use of Fluoxastrobin Technical Fungicide and Fluoxastrobin ST, containing the technical grade active ingredient fluoxastrobin, as a seed treatment for use on corn.

Fluoxastrobin was previously registered in the end-use products Evito 480 SC Fungicide (registration number 30408) and Disarm 480 SC (registration number 30811). Evito 480 SC Fungicide is a foliar application for control or suppression of certain diseases in wheat, barley, corn, soybean, potato, tomato, peppers and strawberry. Disarm 480 SC is registered to control diseases on turf. For the detailed review see the Proposed Registration Decision, PRD2012-07, *Fluoxastrobin Technical Fungicide*.

This decision is consistent with the Proposed Registration Decision PRD2015-28-*Fluoxastrobin*, which contains a detailed evaluation of the information submitted in support of this registration. The evaluation found that, under the approved conditions of use, the products have value and do not present an unacceptable risk to human health or the environment. The PMRA received no comments on PRD2015-28, *Fluoxastrobin*.

Other Information

The relevant test data on which the decision is based (as referenced PRD2015-28, *Fluoxastrobin)* are available for public inspection, upon application, in the PMRA's Reading Room (located in Ottawa). For more information, please contact the PMRA's Pest Management Information Service by phone (1-800-267-6315) or by e-mail (pmra.infoserv@hc-sc.gc.ca).

Any person may file a notice of objection[1] regarding this registration decision within 60 days from the date of publication of this Registration Decision. For more information regarding the basis for objecting (which must be based on scientific grounds), please refer to the Pesticides and Pest Management portion of the Health Canada's website (Request a Reconsideration of Decision) or contact the PMRA's Pest Management Information Service
